

PATHWAYS for Catechist Formation

Benefits of the PATHWAYS Formats

Online - For catechists who have access to high speed internet (some libraries, Panera Bread, Starbucks, home, work or schools) this format provides the catechist using the **PATHWAYS Self Evaluation Guide** with direct links to required resources and websites with current and dynamic content. Explore other helpful Catholic websites with ideas for catechists. Dial up internet connection will be a bit slower. Use of some additional text and video/DVD resources is necessary to complete the PATHWAYS program. Using the online version of PATHWAYS provides the means of completing the Response Form on the computer and an easy exchange with the assigned Reader.

CD - For catechists without an easy access to the internet, the CD provides the Catechist with the **PATHWAYS Self Evaluation Guide** with links to required articles that are copied to the CD for easy viewing. Use of some additional text and video/DVD resources is necessary to complete the PATHWAYS program. The Response Form can be saved to your personal computer and your responses typed into the form using your computer and easily exchanged with your assigned Reader. This format does not provide links to websites with dynamic and current content.

PRINT - This format gives catechists a means to read the **PATHWAYS Self Evaluation Guide** and required companion articles in print. Use of some additional text and video/DVD resources is necessary to complete the PATHWAYS program. The Response Form has limited space for handwriting, so catechists are asked to use lined paper to respond to each of the focus questions, numbering their responses to match the Response Form. The Readers will appreciate legible handwritten responses! Exchange with the Reader will be slower via mail.
